PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience in full-stack web development using JavaScript and TypeScript. Proven track record leading large-scale technical events, managing cross-functional partnerships, and delivering data-driven solutions. Seeking an internship or entry-level Software Engineering / Machine Learning Engineering role to build scalable, intelligent systems.

EDUCATION

- B.Tech in Computer Science & Engineering** / *Quantum Global Campus, Roorkee* Sep 2025 – Jul 2029
- Relevant Coursework: Data Structures & Algorithms, Machine Learning, AI, Database Management, Operating Systems, Computer Networks.
- Class 12th (PCM)** / *CBSE* Sep 2023 – Sep 2024

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3
AI / ML: Machine Learning, Neural Networks, scikit-learn, NumPy, Pandas, Data Preprocessing, Generative AI
Web Development: React.js, Node.js, REST APIs, Full Stack Development
Tools & Platforms: Git, GitHub, VS Code, Microsoft Copilot Studio
Methodologies: Agile/Scrum, Cross-functional Collaboration, Stakeholder Management

WORK EXPERIENCE

- Outreach & Sponsorship Associate** / *HackIndia* May 2026 – Present
- Drove outreach across 10+ universities, increasing hackathon registrations by ~25%.
 - Managed sponsor partnerships and multi-channel campaigns, boosting engagement by ~30%.
- Full Stack Web Development Intern** / *Future Interns* Mar 2026 – Mar 2026
- Built and deployed responsive full-stack features using JavaScript/TypeScript in agile sprints.
 - Collaborated with a remote team on code reviews and iterative feature delivery.
- Core Organizer** / *Quantum University (CodeX Club)* Mar 2026 – May 2026
- Led Q-Hackathon 2026 (36-hr, 200+ participants) and the Crazy UX AI Challenge (100+ participants), managing logistics, a 20+ member volunteer team, and sponsor/faculty coordination.
 - Streamlined onboarding and check-in workflows, cutting processing time by ~40%.
- Core Member** / *CodeX Club, Quantum University* Oct 2025 – Present
- Participated in 10+ coding workshops; mentored junior members on development best practices.

PROJECTS

- AI/ML Portfolio Projects** / *github.com/vanshsaini*
- Trained supervised ML models (classification & regression) in Python/scikit-learn, reaching 85–90% accuracy.
 - Built preprocessing pipelines for 10,000+ record datasets, cutting model error by ~15%.
- Full Stack Web Application** / *Personal Project*
- Built a full-stack app with JavaScript/TypeScript and REST APIs, achieving sub-2s page loads.
 - Integrated AI-powered features, bridging ML models with a production-grade front end.

CERTIFICATIONS

- What Is Generative AI? — LinkedIn Learning (2024)
- Microsoft Copilot Studio — Microsoft (2024)

- Excel Automation using ChatGPT (2024)

LEADERSHIP & ACTIVITIES

- Hackathon Organizer: Led operations for Q-Hackathon 2026 (36-hr, 200+ participants) and Crazy UX AI Challenge (100+ participants) at Quantum University.
- HackIndia Outreach Associate: Building partnerships and managing community engagement for one of India's largest hackathon ecosystems.
- Consistent self-learner: Daily coding practice focused on ML algorithms, neural networks, and software engineering fundamentals.
